

A New Day at the Park

The **WILSON PARK**
PAVILION

Family • City • Community

MILAN PRIDE

A Great Addition to a Great Park!

A pavilion, shelter, bandstand and theater all in one building!

Wilson Park is located near the heart of Milan's downtown and is large enough for major regional events. Milan citizens have long talked about a centrally located pavilion, gazebo or band shell to make more use of our City's crown jewel. In fact, Milan's Parks and Recreation Master Plan has called for one or more such amenities for decades. **It's time to stop talking and get to work!!**

The Milan Parks and Recreation Commission has wished for a larger, more centrally located structure so that it could serve a much larger range of uses. With our increasing stature as an important regional gathering place for concerts, civic events and just plain fun, we've needed a new facility better suited to our growing role. Thus this concept came about to serve all the needs that we currently host and a lot of other uses on Milan's wish list.

For concerts, movies, car shows, fairs and major community events, **the new Wilson Park Pavilion will be something we can all be proud of!**

You'll want to hurry to do your part. The funding campaign has begun and the Parks and Recreation account has already taken in some generous donations! Pledges of in-kind support are also coming in. With your help we will reach our goal to construct the Wilson Park Pavilion in 2013.

Moving Milan Forward is happy to do our part to help promote this project.
