Citizen Advisory: Homeland Security Victim Notification Program Link on PD Website

U.S Immigration and Customs Enforcement (ICE), Homeland Security Investigations (HSI), administers the Victim Notification Program, which allows eligible victims and witnesses to obtain reliable and timely information regarding a criminal alien's release from custody. Victims and witnesses are required to register with HSI in order to receive notification of a criminal alien's release.

To this end, and at HSI's request, the Milan Police Department has placed a hyperlink to the HSI's Victim Notification Program on our website. A victim or witness can simply click on the link and be transferred to a number of valuable victim services provided by ICE.
